

**Bloom additive to
maximize your flower for a
bigger, better harvest**

1-2-3

MASSIVE

+ ADDITIVE NUTRIENT

🌸 FLOWERING STAGE

💧 LIQUID FERTILIZER

WHAT IT IS

Massive Bloom Formulation is our premier flowering additive formulated with all of the necessary microelements required to achieve an increase in flower size as well as providing several additional beneficial properties.

HOW IT WORKS

Massive is a comprehensive bloom additive that contains a full array of the elements plants require to produce large, healthy flowers. Massive Bloom is formulated with L-form amino acids, a specially formulated vitamin profile, a unique blend of carbohydrates, a chelated mineral profile, and a combination of essential nutrients (phosphorus and potassium), which ensure your plants grow big and hefty flowers. This formula also increases and promotes flower size, aromatics, essential oils, chlorophyll content, photosynthesis, CO2 utilization, proper NPK ratios, cell expansion and content, cell wall thickness, floral components, and resistance to stressors. Furthermore, the components in Massive work aggressively to promote, as well as transport vital fluids and cell building materials to the flower sites. This creates truly impressive stacked flower clusters full of aromatic essential oils.

HOW TO USE IT

Add Massive at a rate of 5 ml/L (19 ml/Gal) to your nutrient reservoir for the duration of the flowering cycle. Adjust the pH as needed. At 5 ml/L (19 ml/Gal) your nutrient solution will elevate ppm levels by an additional 300-400 PPM. Be sure to lower your nutrient levels to compensate as to not experience overfeeding. Our Feed Programs take into account the extra PPM so there is no need to cut back on your nutrient strength when following the feed chart.

FOR USE IN

MASSIVE GUARANTEED ANALYSIS

Total Nitrogen (N).....	1.0%
0.1% Ammoniacal Nitrogen	
0.8% Nitrate Nitrogen	
0.1% Other Water Soluble Nitrogen	
Available Phosphate (P ₂ O ₅).....	2.0%
Soluble Potash (K ₂ O).....	3.0%
Iron (Fe).....	0.05%
0.05% Chelated Iron (Fe)	
Molybdenum (Mo).....	0.0002%

Derived from: Potassium Nitrate, Ammonium Phosphate, Monopotassium Phosphate, Dipotassium Phosphate, Potassium Sulfate, Iron EDTA, Ammonium Molybdate, Soy Protein Hydrolysate.

ALSO CONTAINS NONPLANT FOOD INGREDIENT(S):
0.1% Sucrose (derived from Molasses) (microbe food)
0.1% Yucca Extract (derived from Yucca Schidigera)
