

Outdoor 2 Part BackCountry Feed Program Slow Release Granular Formula formulated for outdoor grower

The BackCountry Blend (BCB) feed program is an economic choice for gardeners who wanted to spend less, save time and expend less labour in the process of getting the same reliable results. The base nutrient component comes in two parts: BCB Grow and BCB Bloom.

For Use

Feed Program Benefits:

Save Time

BackCountry Blend (BCB) saves growers time by being the simplest and most aggressive slow-release formula on the market. Here are some of the time-saving qualities of the BCB feeding program:

- Monthly Feeding (every 3-4 weeks)
- No Mixing
- No Buffering
- Easy Application

Save Money

BackCountry Blend is the only feed program that promises economic nutrition without compromising results.

Save Labour

With a slow-release fertilizer like BackCountry Blend, you can expect a massive decrease in labor with capabilities like:

- Water Only Irrigation
- Minimal Application
- Easy to Train Staff
- No Water Reservoirs Needed (Perfect for Irrigation Systems)
